Pentair
Water

Our quality
water systems
will benefit the
entire family.

Introducing a simple treatment for better water...

Our quality water systems are designed to provide your home with better-tasting, purer drinking water, while also removing the many undesirable elements that may be present in hard water, including iron, calcium, sediment and rust. Quality water systems consist of two primary components. These components are the water treatment system and the drinking water filtration system. These two systems in your home will not only improve your water, they will also improve your way of life!

Pentair Water® is committed to providing homeowners with the best quality water treatment and filtration products available today. Working with your professional water treatment dealer, you will be able to select a system that will fit your exact water treatment needs and budget. With a Pentair Water treatment system in your home, you will be assured of many years of quality water.

...in the Kitchen

- Purer, better tasting filtered drinking water at your tap eliminates buying expensive bottled water from the store or having it delivered to your home
- Quality water improves the taste of juice, coffee and soup
- Ice cubes are clearer and harder
- Dishes and china sparkle, using less dish soap
- Clean coffee maker with no scale or buildup
- Save time and energy scrubbing the kitchen sink, cutting boards and countertops

...in the Bathroom

- Soap makes great lather
- Treated water leaves your skin feeling smoother after showering, shaving and washing
- Hair is softer and more manageable
- Reduces soap scum and residue buildup on showers, tubs and sinks
- Save time by reducing scrubbing in the bathroom; save money by reducing soap, shampoo and bathroom cleaner usage by nearly 50%*

...in Plumbing and Appliances

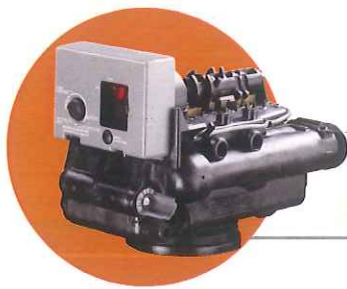

- Increases water heater efficiency by almost 30%*, and extends the water heater life by many years
- Improves water flow and pressure by eliminating calcium buildup in pipes
- Reduces mineral buildup on faucets and plumbing fixtures
- Clothes and linens are cleaner, brighter, softer and last longer
- Adds life to dishwashers and washing machines
- Cuts down on laundry detergent and fabric softener use by 50%* – a real money-saver

The Autotrol® Performa™ Control Valve

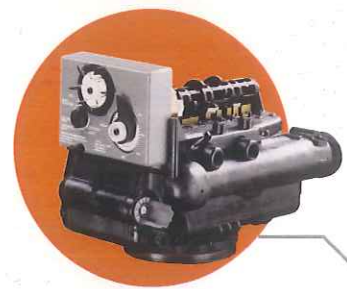

The Autotrol Performa Valve is the leader in high-performance residential control valves. This control's exceptional flow rates ensure that you will have enough water flow for that long shower and to keep up with your growing family! The Performa Valve features DuraFlow™ valve-disc operation, which seat in a vertical position and will not etch. This valve type will not leak, because the valve seal is held closed by water pressure.

The 460i Demand Control

The 460i Demand Control provides your home with treated water based on your family's water usage, regenerating only when necessary. This environment-friendly control ensures you years of soft water; saving you money, water and regenerant. Other great features include:

- Demand-initiated regeneration; a control meter measures your water usage ensuring the maximum capacity and efficiency for your system.
- Guest regeneration button to easily initiate a manual regeneration.
- NOVRAM memory will retain all settings in the event of a power failure.
- Low-voltage power source is safe to use in your home.
- Calendar override automatically regenerates the system at a time interval you select if usage hasn't initiated a regeneration.
- Solid-state electronics guarantee many years of usage.

The 440i Timer Control

This economical 440i Timer Control features:

- Easy control setting, that is as easy as turning a dial.
- All settings are visible on the face of the control, and are easy to read.

Premium-Quality Drinking Water

Combined with a water treatment system, a home Reverse Osmosis (RO) or filtration system will provide your family with purer, better tasting drinking water. You will no longer need to buy expensive bottled water at the store or have it delivered to your home. Quality water will be available right at your kitchen tap. Ask your professional water treatment dealer about quality reverse osmosis or filtration systems utilizing Pentair Water® components.
